

EASTER PUPPET SHOW

OLIEVENHOUTBOSCH JSCHOOL - APRIL 2021

Deltamune has a three-year relationship with the Olievenhoutbosch Junior School and our hearts have been captured by the school and its pupils. Originating through an overwhelming need in the community, and without government funding, they rely on donations and sponsorships.

We held a Puppet Show for the children during March, around Easter time which delighted us all. Easter eggs and refreshments were handed out to the children as well as cleaning items, collected by our employees and donated by the company, for the school. The headmistress, Ria, was extremely grateful for the event as well as the cleaning material. Ria was explaining how hard it is to keep the children positive as they have seen the worst of the pandemic with family members being retrenched, COVID deaths in an area that is already so impoverished.

On previous occasions our collections for Mandela day have gone to school and we would be very grateful, to those of you who can contribute, to do so for the various initiatives we have for the school, including our blanket drive.
